Beautiful Stone Seeded glass defines this 1-light pendant fixture reminiscent of old-fashioned demijohn bottles. Stone seeding is produced by rolling hot glass over a bed of fine gravel, then blowing the glass to encase the fragments. Air bubbles create traditional seeding alongside the visual grit. The seeding pattern is unique to each piece, making every pendant one of its kind. A Patinaed Brass finish on the chain, canopy and hardware lends this pendant a beautiful, warm and welcoming aesthetic ideal for dining areas. Hang this fixture in a sun room or a space with lots of natural light where the gorgeous seeding gets due attention.
